

HSAK Screening Quick Check List

Refer to Healthy School Aged Kids Manual

- Meet with school personnel to discuss and finalise dates and venue for scheduled school health checks
- Speak with RMP or local Doctor to make sure they are available for the 10 + 15 year old Heart checks
- If additional assistance needed contact Child Health workers in Primary Health Care Outreach teams and other departments i.e. Oral Health, Trachoma for support and health promotion activities
- Talk to local Council, stores & other organisations to see if they will donate funds for prizes, games, face painting, school BBQ etc
- Work with school and other community agencies to ensure consent forms distributed & informed parental/guardian consent is given
- Obtain school lists and start chart audit for past medical history and required vaccinations, (if any doubts about vaccine history contact the IMMUNISATION DATABASE (Darwin 89226781))
- Use HSAK manual equipment check list (page 42). Check availability of equipment, (if calibration by Medical engineering required has it been done). Contact Child Health workers in Primary Health Care Outreach who may be able to help with equipment
- Order required vaccines, plus other medical and non medical supplies as per HSAK Manual Page 42
- If immunisations are being administered away from the Health Centre REMEMBER ANAPHYLAXIS EQUIPMENT.
- Who will assist with follow up
- **Finally remember to have fun**
